

Welcome to Virtual Pre-K!

Through a series of short video lessons, activity cards and an easy-to-use web site, Virtual Pre-K[®] encourages parents to take part in their child's education. It's fun and so easy!

Virtual Pre-K has two parts, **the video lessons and the web site**, and is available in two languages: **English and Spanish**.

THE VIDEO LESSONS

Virtual Pre-K begins with the video lessons, available on DVD or CD-Rom. Parents and award-winning teachers guide you through 5-minute lessons that show how to help build early literacy, math, social studies and science skills...virtually anywhere!

You can find simple directions on how to do each activity using the activity recipe cards in the kit.

THE WEB SITE

www.virtualpre-k.org connects you to people, places and ideas that complete each lesson. Any computer with an Internet connection can access the web site, and registration is easy and free. Online, you'll find great resources and a calendar of fun events happening all around town for \$10 or less!

Where do I find the Virtual Pre-K resources?

- ★ Check out your local library to borrow the video, CD-Rom or activity cards.
- ★ Visit our web site at www.virtualpre-k.org.

You'll learn fun activities that you can do at home to support your child's school-readiness skills. And, while your child is learning, you can enjoy a special time together!

For more information, call: 775-327-5632.
